Work under extreme weather conditions and can used under water up to 50cm for depth for about 1hour.

AEROSPACE-GRADE ALUMINIUM

Aerospace-grade Aluminum body, HA III Military grade hard anodized in black, hard coating treatment for scratch resistant surface

FIVE MODE (OPTIONAL)

Rapid Zoom, Strong, Momentary, Faint, SOS

ITEM	DESCRIPTION
LED	CreeP4 1 W LED
Battery SPEC	CR123A
Illumination	Illuminance: Please refer to the Illustration. Working time: HI:1.9H;Low 4.6H, flash: 5H Flashlight Frequency:8HZ to 10HZ
Optical Function	extrem Zoom from 4x to 2000x magnification
Duration of lightening	After 1 Hour lightening (light-decay would be 10%)
Waterproof Ability	water proof(IP55)
Dimension	L113.5mm*Φ38mm
Weight	125g(Batteries included)
