Highlights

LATEST LED TECHNOLOGY

The latest series of LED produced by CREE in United States

HIGH BRIGHTNESS & LIFE-SPAN

High brightness and long life-span of 100,000 hours; saving you the annoyance of replacing light bulbs frequently

HIGH PENETRABILITY

Light beam goes deep through dense smoke, dense fog and dark environment

LOW POWER CONSUMPTION

1 piece of AA alkaline batteries is enough for a long time use

OUTSTANDING OPTICAL LENS

Enables the product with perfect and collimated beam; single hand can adjust the focus within 0.3 seconds

ALUMINIUM ALLOY

Aviation aluminum alloy material for the cover, which is treated with harard coating treatment for scratch resistant surface

VARIETY OF COLORS

A variety of colors wait for your choice

CONVENIENT CARRYING

The small size of our P93 find space in all of your pockets

ITEM	DESCRIPTION
LED	Cree Q2 LED
Battery SPEC	1 x AA alkaline
Working Time	55min >140 Lux Illumination (Zoom IN) 400 Lux / 2m Illumination (Zoom OUT) 40 Lux / 2m
Optical Function	extrem Zoom from 4x to 2000x magnification
Duration of lightening	After 1 Hour lightening (light-decay would be 10%)
Waterproof Ability	water proof(IP55)
Dimension	Φ24.4mm * 97mm
Weight	<102g (Battery included)
