HIGH POWER LED FLASHLIGHT

Highlights

LATEST LED TECHNOLOGY

The latest series of LED produced by CREE in United States

HIGH BRIGHTNESS & LIFE-SPAN

CREE P4 LED with long life-span of 100,000 hours; up to 180 lumens of brightness

HIGH PENETRABILITY

Light beam goes deep through dense smoke, dense fog and dark environment; Also broadly used for outdoor sports

LOW POWER CONSUMPTION

3 pieces of C alkaline batteries for a long time use

OUTSTANDING OPTICAL LENS

Enables the product with perfect and collimated beam; single hand can adjust the focus within 0.3 secondst

WATER RESISTANCE

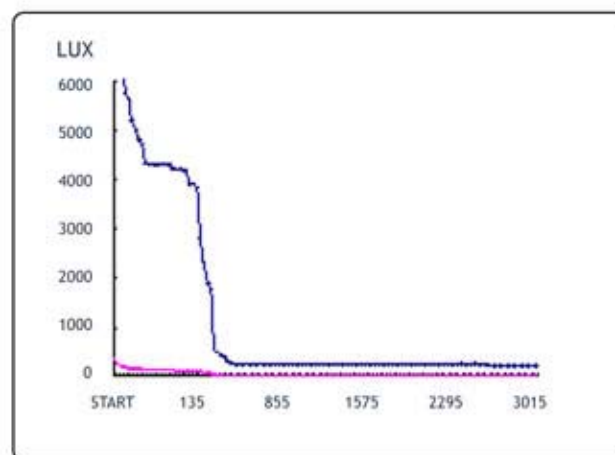

O-ring sealed Splash proof. Work under extreme weather conditions

ALUMINIUM ALLOY

Aerospace-grade Aluminum body, HA III Military grade hard anodized in black, hard coating treatment for scratch resistant surface

ITEM	DESCRIPTION
LED	Cree MCE LED
Battery SPEC	3 x C alkaline batteries
Illumination	Please refer to the Illustration
Optical Function	extrem Zoom from 4x to 2000x magnification
Duration of lightening	After 1 Hour lightening (light-decay would be 10%)
Waterproof Ability	water resistant
Dimension	φ42*200mm
Weight	<440g (Batteries included)

+86 (592) 536-2280
